Subject: Thanking Dr. Balakrishnan Guruji for amazing results of FTR therapy

Guruji,

Earlier, I used to suffer from knee pain, headache, giddiness. I was prescribed with allopathic medicines, I consumed the same, and I was not completely satisfied with allopathic treatment. I came across FTR therapy in TV show "Neegu Unte", and I met and received FTR formula from Guruji for all the above symptoms including diabetes. After performing FTR consecutively, I noticed healthy results and I am completely satisfied with FTR therapy. After I started doing FTR I completely stopped allopathic medicines including diabetic medicine namely glytop SR (10mg), pioz (7.5mg), I was taking anacin tablets alternative days for headache, and for knee pain I used to take Imol tablets. Recently I had gone to RV Lab and undergone executive body health checkup and I noticed no abnormalities in any reports. I am completely healthy and diabetic is also fairly under control.

Symptoms.

- Headache since the age of 13, medicines used for headache: Amruthanjan, Anacin tablets.
- Knee pain since the age of 27, medicines used Imol., Amruthanjan for Knee
- Giddiness since the age of 37, medicines used for giddiness: Stugerom.
- Diabetic since the year 2007, medicines used Amaryl (1mg), Glytop-SR (10mg), Pioz (7.5mg).

As of now, I have completely stopped ^{all} the above medicines, as I noticed good results only from doing FTR.

I would like to thank Sri Rajarajeshwari devi, and Dr. Balakrishnan Gowry, and Sri Bangamma devi, Sai baba and all the gods and goddesses.

Miracle indeed and no medicines at all, what a wonderful method FTR is. Because of which I have saved a lot of money with no side effects at all.
